

Public Notice

The City of Bonham would like to inform the City residents of an upcoming water project. City utility crews will begin work to discontinue an old leaking water line in the 1100 block of West 7th on 11-16-2016 at 10:00 pm. Crews will work through the night until this project is completed. During this time, this area and surrounding areas may not have water service and through traffic will be prohibited with the exception of residents living in the 1100 block of West 7th. Because water will be limited for an extended time and, for precautionary purposes, The City of Bonham will also be issuing a boil water notice that will begin on 11-16-2016 at 10:00 pm and will continue until water samples collected once the project is completed that next morning, once the water samples taken to the lab are cleared, we will lift the boil water notice. If you have any questions or concerns please contact the Director of Utilities, Lance Capehart at 903-583-0204.
